## Why Trupanion?

The Trupanion plan pays 90% of eligible veterinary costs for any new injury or illness, including hereditary and congenital conditions. And you're covered at any veterinary practice in the US, Canada, or Puerto Rico – all US and Canadian military installations included (CONUS and OCONUS).

No payout limits means your coverage won't end and the amount of care your pet receives will not be limited because your pet is unlucky or develops a chronic condition. And your rates won't increase because you've made claims.

We promise to treat your pet as if they were our own.

Terms and conditions apply. See the policy for complete details at [Trupanion.com/pet-insurance](http://Trupanion.com/pet-insurance).

### STORY OF ROKU

*"I was new to the idea of pet insurance. My vet offered me Trupanion's certificate for my cat and I decided to give it a try. Two weeks later, I came to find Roku extremely sick. I took him to an emergency clinic where they had to perform emergency surgery for a possible blocked intestine. After submitting my claim, I was reimbursed for 90% of the entire bill. I've never experienced an insurance company easier to deal with."*

Tara M., Calgary, AB

Condition: Lymph Node, Gastrointestinal Biopsies

Cost of Treatment: \$3,928 | Trupanion Paid: \$3,486

### STORY OF KALI

*"Kali developed a severe case of pneumonia. She was monitored in an oxygen chamber overnight and given antibiotics to clear up her lungs. After a few more days in the hospital, she finally got better. All of the tests and treatment racked up to over \$4,000. It was stressful to say the least. Thankfully Trupanion paid 90% of the cost, and we were able to save Kali's life without going into debt."*

Tyler P., Des Moines, IA

Condition: Severe Pneumonia, Visceral Larva Migrans

Cost of Treatment: \$4,396 | Trupanion Paid: \$3,798
